Reasonable and Necessary Services Provided by FTI

A. Reasonable and Necessary Fees Incurred in Providing Services to the Debtors.

18. The foregoing professional services provided by FTI on behalf of the Debtors during the Fee Period were reasonable, necessary, and appropriate to the administration of the Chapter 11 Cases and related matters. The services provided by FTI during the Fee Period were performed by restructuring and non-restructuring professionals, many of whom have decades of experience in-court and out-of-court restructurings and distress scenarios working on behalf of debtors, creditors, and other interested parties. Overall, FTI brought to the Chapter 11 Cases a high level of skill and knowledge, which inured to the benefit of the Debtors, their estates, and all stakeholders.

B. Reasonable and Necessary Expenses Incurred in Providing Services to the Debtors.

19. The only disbursements billed by FTI relate directly to travel by key FTI personnel in connection with their engagement as restructuring advisor to the Debtors. These travel expenditures arose from FTI's necessary participation in court hearings and business meetings. The disbursements for such services are not included in FTI's overhead for the purpose of setting billing rates and FTI has made every effort to minimize its disbursements in the Chapter 11 Cases. These actual expenses incurred were necessary, reasonable, and justified under the circumstances to serve the needs of the Debtors in the Chapter 11 Cases.

FTI's Requested Compensation and Reimbursement Should be Allowed

20. Section 331 of the Bankruptcy Code provides for compensation of professionals and incorporates the substantive standards of section 330 of the Bankruptcy Code to govern the Court's award of such compensation. Section 330 of the Bankruptcy Code provides that a court may award a professional employed under section 327 of the Bankruptcy Code "reasonable compensation for actual necessary services rendered . . . and reimbursement for actual, necessary

expenses." 11 U.S.C. § 330(a)(1). Section 330 of the Bankruptcy Code also sets forth the criteria for the award of such compensation and reimbursement:

> In determining the amount of reasonable compensation to be awarded, the court should consider the nature, extent, and the value of such services, taking into account all relevant factors, including—
>
> (a) the time spent on such services;
>
> (b) the rates charged for such services;
>
> (c) whether the services were necessary to the administration of, or beneficial at the time at which the service was rendered toward the completion of, a case under this title;
>
> (d) whether the services were performed within a reasonable amount of time commensurate with the complexity, importance, and nature of the problem, issue, or task addressed; and
>
> (e) whether the compensation is reasonable based on the customary compensation charged by comparably skilled practitioners in cases other than cases under this title.

11 U.S.C. § 330(a)(3).

21. The services for which FTI seeks compensation in this Application were, at the time rendered, necessary for and beneficial to the Debtors and their estates and were rendered to protect and preserve the Debtors' estates. FTI further believes that it performed the services for the Debtors economically, effectively, and efficiently, and that the results obtained benefited not only the Debtors, but also the Debtors' estates and their stakeholders. The compensation requested herein is reasonable in light of the nature, extent, and value of such services to the Debtors, their estates, and all parties in interest.

22. During the Fee Period, FTI's hourly billing rates for professionals ranged from $235 to $1,580. The hourly rates and corresponding rate structure utilized by FTI in the Chapter 11 Cases are equivalent to the hourly rates and corresponding rate structure used by FTI for restructuring, workout, bankruptcy, insolvency, and comparable matters, whether in court or

otherwise, regardless of whether a fee application is required. FTI strives to be efficient in the staffing of matters. These rates and the rate structure reflect that such matters require close attention to complex matters, present significant and novel challenges, and often require providing the highest level of services under severe time pressures, all of which were present in the Chapter 11 Cases.

23. Moreover, FTI's hourly rates are set at a level designed to compensate FTI fairly for the work of its professionals and to cover certain fixed and routine overhead expenses. Hourly rates vary with the experience and seniority of the individuals assigned. These hourly rates are subject to periodic adjustments to reflect economic and other conditions and are consistent with the rates charged by other firms for performing similar services in similarly complex chapter 11 cases.

24. In sum, the professional services provided by FTI on behalf of the Debtors and their estates during the Chapter 11 Cases were necessary and appropriate given the complexity of the Chapter 11 Cases, the time expended by FTI, the nature and extent of FTI's services provided, the value of FTI's services, and the cost of comparable services outside of bankruptcy, all of which are relevant factors set forth in section 330 of the Bankruptcy Code. Accordingly, approval of the compensation sought herein is warranted and should be approved.

WHEREFORE, FTI requests that the Court enter an order, substantially in the form attached hereto: (a) awarding FTI final compensation for professional services provided during the Fee Period in the amount of $19,640,445.30, a completion fee of $2,250,000.00, and reimbursement of actual, reasonable, and necessary expenses incurred in the Fee Period in the amount of $126,373.07, and that such allowance be without prejudice to FTI's right to seek additional compensation for services performed and expenses incurred during the Fee Period in the event such fees and expenses were not processed at the time of this Application and grant such other and further relief as is proper and just; (b) authorizing and directing the Debtors to remit payment to FTI for the unpaid balance of such fees and expenses; and (c) granting such other relief as is appropriate under the circumstances.
