[1] The last four digits of the Debtor's federal tax identification number are 0510. The Debtor's corporate headquarters is located at 977 Pruitt Place, Tyler, TX 75703. All pleadings, as well as additional information related to the administration of the above-captioned bankruptcy case, are accessible free of charge on the case website at the following link: https://cases.ra.kroll.com/BSR/.

("Reliance") (collectively "Movants"), by and through undersigned counsel, hereby file this *Joinder in Profrac's and Cactus Wellhead's Motions for Entry of an Order Granting Adequate Protection and Separate Motion for Entry of an Order Granting Adequate Protection* (the "Joinder and Motion") and request that this this Court enter an order pursuant to Sections 361 and 363(e) Chapter 11 of title 11 of the United States Code (the "Bankruptcy Code"), seeking entry of an Order, substantially in the form attached hereto as **Exhibit A** (the "Proposed Order"), ordering the Debtor to provide Movants with adequate protection of their interests in the Movants' Collateral (as defined below). In support of this Joinder and Motion, Movants respectfully state as follows:

PRELIMINARY STATEMENT

1. The Movants have valid perfected statutory liens on certain of the Debtor's assets totaling not less than $13,412,758.28, and Movants' interest in the Debtor's operations and proceeds of same ("Movants' Collateral") has been diminishing since the outset of the bankruptcy. The Movants' collateral is not, and has not been, adequately protected for this ongoing decline in value.

2. Movants file this Joinder and Motion at this time due to the significant risks posed by the apparent trajectory of this case. This case commenced on the Involuntary Petition Date, approximately six months ago, with the order for relief entered on the Voluntary Petition Date, over five months ago. Despite indications in hearings that a sale process for Debtor's assets was imminent, no meaningful progress has been evident on the docket. Particularly, there has been no observable progress toward a sale process OR a resolution of the title disputes regarding the ownership of the leasehold interests in the Debtor's operations which are subject to the Movants' Ch. 56 liens. Even so, if the sale process moves forward, the potential outcome of such process appears to be highly uncertain (e.g., it is unclear if there will be a stalking horse bidder for the

assets, and, if so, what the proposed terms of such bid may be, or the effect of the potential sale on lien creditors, particularly with respect to the title dispute.)

3. Since the Involuntary Petition Date, the Debtor is funding its expenses through the use of, among other things, the cash collateral from the Debtor's operations without Movants' consent. The significant operational and administrative expenses being paid and accrued in this case have likely resulted, and will continue to result, in material diminution in the value of the Debtor's operations, Movant's Collateral. The Debtor bears the burden to demonstrate that the Movants' collateral is adequately protected. The Debtor has not done so, and likely cannot. Consequently, the Debtor should not be allowed to proceed without providing Movants with adequate protection of their interests. Without adequate protection, the Debtor's continued use of Movants' collateral is prohibited under the Bankruptcy Code.

JURISDICTION AND VENUE

4. This Court has jurisdiction over this Motion by virtue of 28 U.S.C. §§ 1334 and 157 and all other applicable rules and statutes affecting the jurisdiction of Bankruptcy Courts generally. This is a core proceeding pursuant to 28 U.S.C. § 157(b). Venue is proper in this Court pursuant to 28 U.S.C. §§ 1408 and 1409.The statutory predicates for relief requested herein are Bankruptcy Code Sections 361 and 363.

RELIEF REQUESTED

5. Movants respectfully request that the Court enter an order substantially in the form of the proposed attached order granting adequate protection.

FACTUAL BACKGROUND

6. At the request of the Debtor, the Movants provided the Debtor with labor, materials, equipment, machinery and/or services in connection with drilling, completion, maintenance, repair

and/or operations of the Debtor in Cass County, Texas between July 22, 2023 and August 3, 2024. The Debtor, however, failed to pay the Movants for such services and equipment when due.

7. As a result, pursuant to and in accordance with Texas Property Code each of the Movants timely filed certain mineral lien affidavits (the "M&M Liens") in connection with the outstanding amounts due. True and correct copies of the M&M Liens are attached hereto as **Exhibits B through H.**

21. The total amount due and owed to Reliance is $4,900,548.03 on the Reliance Liens for such work on the Debtor's operations. True and correct copies of the Reliance Liens and amendments are attached hereto as **Exhibit H**.

22. On July 23, 2024 (the "Involuntary Petition Date"), the petitioning creditors filed an involuntary petition under chapter 7 of the Bankruptcy Code. On August 19, 2024 (the "Voluntary Petition Date"), Barrow Shaver Recourses Company LLC (the "Debtor") consented to an order for relief by filing its voluntary petition under chapter 11 of the Bankruptcy Code. During the period of time between the Involuntary Petition Date and Voluntary Petition Date (the "Gap Period"), the Debtor operated its business in the ordinary course of business and James A. Katchadurian was appointed as Chief Restructuring Officer (the "CRO") of the Debtor.

23. The Debtor has indicated its case strategy includes pursuing a sale of all or substantially all of its assets.[3] Although the Debtor initially indicated it may seek post-petition financing,[4] at the September 17, 2024 status conference, the Debtor advised the Court that it intends to fund its business, the administration of the Chapter 11 case, and the sale process through cash proceeds generated operations. The Debtor has no prepetition funded secured debt presently.[5]

24. Further, pursuant to the *Final Order (I) Authorizing the Debtor to Pay or Apply Payments Attributable to Mineral Interests in the Ordinary Course and (II) Granting Related Relief*, dated September 30, 2024 [Doc. 237] (the "Payment Order"), the Debtor is authorized to make certain payments in respect of certain interests, including disputed working interests and overriding royalty interests.

25. From December 8, 2024, through December 10, 2024, Axis timely filed twenty secured Proofs of Claim (collectively with all Movants, "Proofs of Claim"), one for each well, on the Court-approved Lien Claimant Proof of Claim Form. Axis' Proofs of Claim are numbered 468, 472, 474, 479, 485, 525, 542, 552, 553, 554, 555, 556, 557, 559, 560, 561, 562, 563, 744, and 818.

26. On December 10, 2024, DOC timely filed eight secured Proofs of Claim, one for each well, on the Court-approved Lien Claimant Proof of Claim Form. DOC's Proofs of Claim are numbered 717, 718, 719, 720, 726, 724, 752, and 747.

27. On December 8, 2024, Cudd timely filed one Proof of Claim, on the Court-approved Lien Claimant Proof of Claim Form. Cudd's Proof of Claim is numbered 644.

28. On December 8, 2024, Thru Tubing timely filed three Proofs of Claim, one for each well, on the Court-approved Lien Claimant Proof of Claim Form. Thru Tubing's Proofs of Claim are numbered 584, 585 and 645.

29. On December 10, 2024, Genesis Fluids timely filed four secured Proofs of Claim, one for each well, on the Court-approved Lien Claimant Proof of Claim Form. Genesis' Proofs of Claim are numbered 709, 731, 758, and 764.

30. On December 10, 2024, Force timely filed eighteen secured Proofs of Claim, one for each well, on the Court-approved Lien Claimant Proof of Claim Form. Force's Proofs of Claim

are numbered 713, 721, 722, 724, 725, 727, 732, 745, 746, 748, 749, 750, 751, 753, 754, 755, 757, and 761.

31. On December 9, 2024, Reliance timely filed six secured Proofs of Claim, one for each well, on the Court-approved Lien Claimant Proof of Claim Form. Reliance's Proofs of Claim are numbered 639, 642, 658, 662, 663 and 668.

BASIS FOR RELIEF REQUESTED

A. The Movants are Entitled to Adequate Protection as a Matter of Law

32. Bankruptcy Code Section 363(c)(2) provides in relevant part: "The trustee may not use, sell, or lease cash collateral under paragraph (1) of this subsection unless –

(A) each entity that has an interest in such cash collateral consents; or

(B) the court, after notice and a hearing, authorizes such use, sale, or lease in accordance with the provisions of this section." 11 U.S.C. § 363(c)(2).

33. The Bankruptcy Code further states in Section 363(e) that, "Notwithstanding any other provision of this section, at any time, on request of an entity that has an interest in property used, sold, or leased, or proposed to be used, sold or leased, by the trustee, the court … shall prohibit or condition such use, sale, or lease as is necessary to provide adequate protection of such interest." 11 U.S.C. § 363(e).

34. The provision of adequate protection under Section 363(e) is mandatory, not discretionary. *See, e.g., In re Continental Airlines, Inc.*, 146 B.R. 536, 539 (Bankr. D. Del. 1992). Moreover, these provisions of the Bankruptcy Code embody the constitutional prohibition against deprivation of property without just compensation. *See In re Timbers of Inwood Forst Associates, Ltd.,* 793 F.2d 1380, 1396 (5th Cir. 1986), aff'd, *United Sav. Ass'n of Texas v. Timbers of Inwood*

Forest Assocs., Ltd., 484 U.S. 365 (1988) ("The concept [of adequate protection] is derived from the fifth amendment protection of property interests.").

35. The Debtor carries the burden of proof to establish that statutory lien creditors' interests such as those of the Movants are adequately protected. *See* 11 U.S.C. § 363(p)(1) (providing that the debtor-in-possession has the burden of proof on issue of adequate protection). Unless the Debtor can provide adequate protection to the Movants, the Movants do not consent to the Debtor's use of its cash collateral or any of the other property to which their mineral liens attach.

36. As of the filing of this Motion, the Debtor owes the Movants not less than $13,412,758.28. This claim is secured by M&M Liens that the Movants perfected through filing of lien affidavits in the appropriate jurisdiction, within the applicable time period, and contain the pertinent information required under Texas Property Code Chapter 56. Accordingly, the Movants hold a properly perfected lien securing payment of their claim.

37. Although the Debtor refused to acknowledge the secured nature of the creditors on its schedules of assets and liabilities despite direct knowledge of such liens (e.g., countless notices of perfection served on the Debtors pre-and post-petition), the Movants are secured creditors in this case, which entitles them to adequate protection as required by Bankruptcy Code Section 361. The Proofs of Claim are *prima facie* valid unless and until the Debtor objects. 11 U.S.C. § 502(a). No parties have objected to the Proofs of Claim as of the date of this filing.

38. By virtue of the M&M Liens, Movants have a first priority secured interest in the Debtor's operations secured by the M&M Liens. See Tex. Prop. Code § 56.004. The relative priority of the liens need not be decided by the Court at this point as all secured claims must be protected. The M&M Liens encumber the, attach to, and the Movants' claims are secured by the

following assets related to each well to which goods and/or services were provided: (i) the material, machinery and supplies furnished by the lien claimant; (ii) the wells and the leases for oil and gas purposes for which the material, machinery, supplies and labor was furnished; (iii) other material, machinery, or supplies used for mineral activities and owned by the mineral property owners; (iv) other wells and pipelines used in operations related to oil, gas and minerals and located on the mineral property; and (v) any other property provided for in Texas Property Code §56.003. Tex. Prop. Code § 56.003. **Further, the Mineral Liens attach to and encumber the proceeds generated from production from the Debtor's operations. *See Abella v. Knight Oil Tools,* 945. S.W.2d 847 (Tex. App.-Houston [1st Dist.] 1997, no writ).**

39. The Movants are secured creditors entitled to adequate protection to the extent their liens are devalued by continued operations and production by the Debtor. The Debtor's continued production is removing the most valuable property subject to the liens without the written consent – and over the written objections – of the Movants. Absent written consent from the lienholders that have equal ownership rights to the minerals, Texas law prohibits the removal from the land or sale of property to which a Chapter 56 lien attaches. Tex. Prop. Code. § 56.042.

40. Notably, upon violation of that section, lienholders are entitled to possession of the property where it is found and sold to satisfy the debt. *Id.* In the absence of these statutory protections under Chapter 56 in bankruptcy, the protection must be afforded to cover the totality of the property interests to which these liens attached under the Texas Property Code. For Chapter 56 lienholders, this includes adequate protection with respect to the minerals themselves as part of the leasehold. *Nat. Gas Pipeline Co. of Am. v. Pool*, 124 S.W.3d 188, 192 (Tex. 2003).

41. Every day those minerals are depleted by further production by the Debtor and no longer available to satisfy the Debtor's substantial debts.

42. Consequently, Movants are entitled to adequate protection as a matter of law to protect against any diminution in value of their interests in Movants' Collateral through the Debtor's use or sale of such assets during this bankruptcy case. See *In re Scopac*, 624 F.3d 274, 282 (5th Cir. 2010) ("A secured creditor whose collateral is subject to the automatic stay may first seek adequate protection for diminution of the value of the property[.]"); *In re Continental Airlines, Inc.*, 146 B.R. 536, 539 (Bankr. D. Del. 1992) (noting that a debtor's right to use, sell or lease property is limited by Section 363(e) of the Bankruptcy Code which provides "the court … shall prohibit or condition such use … as is necessary to provide adequate protection of such interest"), *aff'd* 91 F.3d 553 (3d Cir. 1996); *In re Dewey Ranch Hockey, LLC*, 414 B.R. 577 (Bankr. Az. 2009) (sustaining objection to proposed Section 363 sale and denying proposed sale because objecting party's interests in assets would not be adequately protected); *In re American Kitchen Foods*, 2 Bankr. Ct. Dec. 715, 719 (Bankr. D. Me. 1979) ("No material impairment of collateral is constitutionally permissible, either within or without bankruptcy proceedings, in the absence of just compensation.").

B. The Movants' Collateral is Not Adequately Protected

43. The purpose of adequate protection is to ensure that the secured creditor receives "the value for which he bargained prebankruptcy." *In re Swedeland Dev. Grp., Inc*., 16 F.3d 552, 564 (3d Cir. 1994)(citation omitted). "Congress did not contemplate that a creditor could find its priority position eroded and, as compensation for the erosion, be offered an opportunity to recoup dependent upon the success of a business with inherently risky prospects." *Id*., at 567 (noting that bankruptcy judges should "require that adequate protection be demonstrated more tangibly").

44. The value of the Movants' Collateral has diminished since the Involuntary Petition Date. Since that time, the M&M Liens are being devalued with every passing day the Debtor

continues to operate wells subject to the M&M Liens and use the equipment and other goods supplied to the Debtor by the Movants.

45. The Movants are not adequate protected this severe and ongoing diminishment, and the Debtor has not carried its burden to demonstrate otherwise. Bankruptcy Code Section 363(p)(1) provides that the debtor bears the burden of proving that the secured creditor's interests are adequately protected. 11 U.S.C. § 363(p)(1). If a debtor cannot carry its burden, the Court cannot approve the debtor's use, sale, or lease of the collateral at issue, and any such actions must be prohibited. *See, e.g., Reiser v. Dayton Country Club Co. (In re Magness)*, 972 F.3d 689 (6th Cir. 1992); *Martin v. Commodity Credit Corp*., 761 F.2d 472 (8th Cir. 1985).

46. Under Bankruptcy Code Section 361, adequate protection may include: (a) periodic cash payments; (b) additional or replacement liens; or (c) the "indubitable equivalent" of a secured creditor's interest in such property. *See* 11 U.S.C. § 361; *In re Swedeland Dev. Grp., Inc.,* 16 F.3d 552, 564 (3d Cir. 1994) (citing 11 U.S.C. § 361). What constitutes adequate protection is decided on a case-by-case basis and may take various forms. *See Swedeland,* 16 F.3d at 564; *In re Energy Future Holding Corp.,* 527 B.R. 157, 165 (D. Del. 2015) ("Creditors with depreciating collateral values may petition the court for cash payments, replacement liens, or administrative expenses to provide the necessary adequate protection."); *In re Beker Indus. Corp.,* 58 B.R. 725, 736 (Bankr. S.D.N.Y. 1986) (the application of adequate protection "is left to the vagaries of each case, but its focus is protection of the secured creditor from diminution in the value of its collateral during the reorganization process") (citation omitted).

47. The Debtor has not provided the Movants with any periodic cash payments or such other relief as contemplated by section 361(3). The Movants respectfully request that the Debtor be held to its burden to prove otherwise. *See, e.g.*, *In re Young*, 2011 WL 3799245 at *7 (Bankr.

D.N.M. Aug. 29, 2011) (stating that a "threatened decline in the value of a creditor's collateral entitling the creditor to adequate protection can occur, for example, from lack of insurance, failure to maintain the collateral, failure to permit periodic inspections, or a failure to report information affecting the collateral"). A threatened decline in the collateral is present with the Debtor's apparent failure to report assets that are no longer part of the Debtor's estate.

48. Importantly, Movants' Collateral should be adequately protected against the continued diminution in value caused by Debtor's monthly use of those proceeds. *See Butner v. United States*, 440 U.S. 48, 56-57 (1979) ("the federal bankruptcy courts should take whatever steps are necessary to ensure that the secured creditor] is afforded in federal bankruptcy court the same protection he would have had under state law if no bankruptcy had ensued"); see also *Federal Nat'l Mortgage Ass'n v. Dacon Bolingbrook Assocs. Ltd. Partnership*, 153 B.R. 204, 210 (N.D. Ill. 1993) (explaining that the bankruptcy law should protect the value of both a secured creditors interest in a debtor's property and the proceeds derived from that property).

49. Notwithstanding the M&M Liens against the Movants' Collateral, the Debtor has and continues to use or sell, or intends to use or sell, the Movants' Collateral without their consent. For example, on information and belief, the Debtor is currently funding (and intends to continue funding) its operations and litigation against third parties, among other things, the proceeds of Movants' Collateral, without their consent. The Debtor asserts that it is conducting a sale process for substantially all of its business and operations, including Movants' Collateral, without Movants' consent. Further, pursuant to the Payment Order, the Debtor may use the proceeds of Movants' Collateral to pay certain junior and disputed interest holders without Movants' consent.

50. Accordingly, the Movants respectfully requests that the Court prohibit any further use of the Movants' Collateral unless and until the Debtor provides adequate protection sufficient

to protect the Movants' interests in their collateral at this time and in the future, to the extent of continuing decline. *See* 11 U.S.C. § 363(e) ("at any time, on request of an entity that has an interest in property used, sold, or leased, or proposed to be used, sold, or leased, by the trustee, the court, with or without a hearing, shall prohibit or condition such use, sale, or lease as is necessary to provide adequate protection of such interest")

RESERVATION OF RIGHTS

51. Movants reserve the right to amend this Motion at any time prior to the hearing thereon. Moreover, Movants reserve the right to seek additional relief with respect to Movants' Collateral, including, without limitation, to credit bid in connection with any sale of assets constituting Movants' Collateral pursuant to Bankruptcy Code Section 363(k) and/or to seek relief from the automatic stay pursuant to Bankruptcy Code Section 362(d).

CONCLUSION

Accordingly, Movants respectfully request entry of the attached proposed order and the granting of such other relief to which Movants are justly entitled.

Resources Co. (collectively, "*Barrow Shaver*"),[2] in connection with certain mineral activities on tracts of land in *Cass County, Texas*, of which you appear to be the owner of the mineral leasehold estate (the "Leasehold Estate").

The Leasehold Estate is generally described as: (i) the wells (the "*Wells*") which were, are being, or are hereafter, developed under the "Leases" (herein defined), including, but not necessarily limited to, the McFarlane-Alford (AW) 1H Well (the "*McFarlane-Alford Well*") which *McFarlane-Alford Well* is more particularly described in the attached **Exhibit "B"**; (ii) all leases (the "*Leases*") under which the *McFarlane-Alford Well* was, is being, or is hereafter, developed (including the land over, under, and/or through which the Leases run [collectively, the "*Land*"]), and the leases (or portions thereof) included in the unit of which the *McFarlane-Alford Well* is a part (the "McFarlane Unit"), which McFarlane Unit is described in the Well Location Plat attached hereto as part of Exhibit "B"; and, (iii) all properties operated as part of a joint operation with the *McFarlane-Alford Well*, regardless of whether part of a formal unit. 2 References to Barrow Shaver are intended to be references to the addressees of this letter, collectively. According to the Real Property Records of Cass County, Texas, the working interest owner of the "Leasehold Estate" (herein defined) is Barrow Shaver Resources Company LLC, a Texas limited liability company. According to the records of the Texas Railroad Commission, the operator of the "McFarlane-Alford Well" (as herein defined) is Barrow-Shaver Resources Co. A search of the records of the Texas Secretary of State does not disclose an entity formed under the name "Barrow-Shaver Resources Co." Further, it does not appear that "Barrow-Shaver Resources Co." is an assumed name of an entity listed among the records of the Texas Secretary of State.

3 A copy of the foregoing invoices, and the corresponding job reports, are attached hereto as **Exhibit "A"**, which also describes the dates on which the Work was provided.

4 The lien claim described herein is asserted against the Land to the extent provided by Chapter 56 of the Texas Property Code.

properties operated as part of a joint operation with any of the foregoing; and, all other property as provided by Chapter 56 of the Texas Property Code.

The Lien claim asserted by *Cudd* herein is as a mineral contractor against the interest, legal and/or equitable, of *Barrow Shaver* in and to the Leasehold Estate, all in accordance with the provisions of Chapter 56 of the Texas Property Code and applicable case law.

The amount of the Lien claimed by *Cudd* is ***$959,340.00***, which is the principal sum due and owing to *Cudd* by *Barrow Shaver* in connection with the Work, all as indicated by the foregoing summary, and as further detailed in **Exhibit "A"** hereto.

In addition to the foregoing Lien claim, demand is here made on *Barrow Shaver* for the payment of the sum of ***$959,340.00***, being the principal amount of the foregoing claim.[5] If this amount is not paid within ten (10) calendar days from the date of this letter, *Cudd* will thereafter take all action necessary to perfect the foregoing Lien, including filing for record in the Real Property Records of *Cass County, Texas* an appropriate lien affidavit in accordance with the provisions of Chapter 56 of the Texas Property Code. Thereafter, *Cudd* may institute an appropriate legal proceeding: seeking the recovery of the foregoing principal amount of this claim, together with interest thereon as allowed by law, and its costs and attorney's fees; and, seeking an Order foreclosing the Lien and directing the Sheriff of *Cass County, Texas* to sell the Leasehold Estate at a foreclosure sale, with the proceeds thereof to be applied to the payment of the foregoing Lien claim until the claim is paid in full.

Very truly yours,

William R. Sudela
